This was the hardest card game I've had to play. I did manage to win afterwards though! Apart from that: great challenge. Cute pirate kitty and I enjoy the card designs! The more colorful cards are harder to play with (because of different shapes on them), BUT that means you can overcome another challenges and be proud of yourself. There isn't much to do, but for a mindless card fun + cheap prices = this will work.. Very basic solitaire game, as expected for such price. Good graphics, cute cat. However I've encountered some annoying issues while playing - when you drag and drop a card you have to point it precisely on new spot or otherwise it will jump back to old spot. Very annoying because other solitaire games don't have this issue. I hope developers can improve this behavior.. So it's just normal solitaire. It has a cat wearing a pirate outfit as its background. The music is awful so it gets turned off anyway. This is my "play in the background while I'm watching TV or avoiding adulting" game. It really just is bare bones and mindless, but a cute spin on the basic version.because.pirate cat. Plus it's really cheap.I think I may have gotten it as part of an extremely inexpensive bundle, so maybe wait for it to be on sale or look for it in a bundle deal if the price is scaring you away.. Possibly the worst Solitaire game I have ever played with cringe worthy music..

my eyes, stuffing up Solitaire is a bigger developing mistake than Nintendo's devastating Virtual Boy, bigger than Phil Fish's I quit because I can't handle a complaint, bigger than 2011 play stationu2019s friendly 77 million you've been hacked notifications. Seriously if you have shares in this company <http://www.boogygames.com/index.html> then itu2019s time to Sell, Sell, And Sell. \* Tedious and anal drag and drop \* Marketing and Themes that appeal to Crazy Cat Ladies only \* Music that will make you wish you were deaf \* Zero starteru2019s instructions \* No achievements \* UI more unfriendly than finding a Klingon's G Spot. \* Scammy content thatu2019s flagrantly u2018Nigerian I need your help to transfer moneyu2019 worthy. Unity, skeletal, laborious, finished within 5 minutes. This game needs more 'It Never Happened' marketing cover up than Roswell.
